Visit The West Chilcotin

Miniam Schilling Photo

Welcome to the West Chilcotin

Follow us into a land of Adventure. The spectacular Chilcotin Plateau is Cowboy Country! Ringed with majestic mountains, from the sky scraping Coast Mountain Range to the smooth and worn cones of old shield volcanos, they protect the grasslands, meadows, lodgepole pine forests and endless lakes of the plateau. In this country, the cattle roam with moose, deer and caribou throughout the summer until round up in the fall when they are still gathered up the old fashioned way.... From the back of a horse. Experience fabulous high mountain lakes, wild flower carpeted meadows, rolling alpine and ancient volcanic rock on horseback. Go trailriding on a multi-day pack trip, or just go out for the afternoon. Kayak or canoe our numerous lakes or try your hand at fishing for our hard fighting native rainbow trout. We have endless hiking trails from moderate ones at lower elevations to more strenuous ones up into the alpine where small glacial lakes sit like aqua colored jewels at the foot of mountains. Go flightseeing in a floatplane over this wild, majestic land or, simply just relax and enjoy the quiet.
